Date of issue: 26 June 2023 NZ Safety Data Sheet

Date of issue: 26.	June 2023 NZ Safet	y Data Sheet		
1. Identification of the Substance/Mixture and Supplier.				
Product name:		Aalto Trade Exterior Low Sheen White (302-100, AT302-		T302-
Application:		100) Paint		
Аррисацоп.		allil		
Company:	Γ	DECORA GROUP LTD		
		7 Akatea Road,		
		Glendene,		
		Auckland, New Zealand.		
Telephone:		9 818 9215		
Facsimile:		9 818 7862		
Emergency telephor	ne: C	0800 761 333		
2. Hazards Id	entification.			
HSR002670	sified as hazardous according		NO approval number	
<b>DG Status:</b> Not class <b>Signal Word:</b> WAR	ssified as Dangerous Goods a	according to NZS5433		
Signal Word. WAN	INING			
HAZARD (	CLASSIFICATIONS HSNO	HAZARD STAT	TEMENTS	GHS Pictogram
Eye irritation Catego	ory 2	H319 Causes serious eye	irritation.	<b>(</b> )
Skin sensitisation Category 1		H317 May cause an allerg	ic skin reaction.	<b>(1)</b>
Hazardous to the aquatic environment chronic		H412 Harmful to aquatic li	fe with long lasting	N/A
Category 3		effects.		
DDEVENTION CTA	TEMENTO			
PREVENTION STA P103	Read carefully and follow all	instructions		
P104	Read Safety Data Sheet bef			
P261	Avoid breathing mist/vapours			
P264	Wash hands thoroughly afte	r handling.		
P272	Contaminated work clothing		the workplace.	
P273	Avoid release to the environment.			
P280 Wear protective gloves/protective clothing/eye protection/face protection.				
RESPONSE STATEMENTS P302+P352   IF ON SKIN: Wash with plenty of soap and water.				
P333+P313	IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.			
P363	Take off contaminated clothing and wash before re-use.			
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if			
Door 5-1-	present and easy to do. Continue rinsing.			
P337+P313   If eye irritation persists: Get medical advice/ attention.				
STORAGE STATEMENTS				
DISPOSAL STATE	MENTS			
P501	Refer to Section 13.			
3. Composition/Information on Ingredients.				
01 1 15 22		L040 N	I D	
Chemical Entity		CAS Number	Proportion %w/w	

Date of issue: 26 June 202	NZ Safety Data Sheet		
Polyphase 2167	<0.5		
Balance of ingredients: Non-h	nazardous, or below the hazardous threshold.		
4. First Aid Measures.			
Swallowed	If swallowed do NOT induce vomiting. Give water to drink. Get medical attention if symptoms occur.		
Inhaled	If inhaled, move the victim to fresh air immediately. Begin artificial respiration if breathing has stopped. Obtain medical attention if symptoms occur.		
Eye Contact	If splashed in the eyes, wash out immediately with water. Obtain medical attention if irritation occurs.		
Skin Contact	If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. Get medical attention if symptoms occur.		
Further Information	For advice contact the National Poisons Centre – 0800 POISON (0800 764 766) – or a doctor, immediately.		
5. Fire-Fighting Measu	ires.		
Suitable extinguishing media	In case of fire, use water spray (fog), foam, dry chemical or CO <sub>2</sub> .		
Unsuitable extinguishing media	High volume water jet.		
Hazards from the substance	In a fire or if heated, a pressure increase will occur and the container may burst.		
Hazardous combustion	Decomposition products may include:		
products	Carbon oxides, Nitrogen oxides, Other noxious substances.		
Special precautions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.		
Special protective equipment for fire fighters	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.		
6. Accidental Release	Measures.		
Personal precautions	Wear appropriate Personal Protective Equipment (see section 8). Provide adequate ventilation.		
Environmental precautions	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).		
Small spill	Stop leak if without risk. Move containers from spill area. Absorb with an inert dry material and place in an appropriate waste disposal container. Eliminate all ignition sources. Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor.		
Large spill	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Eliminate all ignition sources. Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product.		
	7. Handling and Storage.		
7. Handling and Stora	ge.		

Date of issue: 26 June 29	NZ	Safety Data Sheet

	in the work area. Avoid skin or eye contact, or breathing in the product. Follow precautions listed in section 2 for handling flammable/combustible liquids.
Storage	Keep container dry and tightly closed, in a cool, well-ventilated area, away from direct sunlight. Keep away from heat, sparks and open flame.

## 8. Exposure Control/Personal Protection

Exposure Standards			
No exposure limits set for the	finished product, list	ed components below.	
Product/Ingredient	WES/TWA	WES/STEL	Reference
Quartz <sup>(r)</sup>	-/0.050mg/m <sup>3</sup>		NZ-WES
(r)Quartz is only a problem as	a respirable dust, or	nce bound it is non-hazardous.	
Engineering Controls	General ventilation and local exhaust should be suitable to keep vapour concentrations below WES/TWA. Ventilation equipment should be explosion-proof when operating in flammable zones.		
Personal Protection			
Respiratory	Wear a vapour respirator, if poor ventilation exists.		
Eyes	Wear chemical goggles/face protection.		
Hands	Wear chemical gloves – PVC, Polychloroprene or Nitrile.		
Other	Wear overalls or dust coat. Use PVC apron when handling large quantities.		

## 9. Physical and Chemical Properties

PROPERTY	SPECIFICATION
Appearance (physical state, colour, etc.)	Liquid, white
Odour	Not available
Odour threshold	Not available
рН	8.5-9.5
Melting point/freezing point	Not available
Initial boiling point and boiling range	Not available
Flash point	Not available
Flammability (solid, gas)	Not available
Upper/lower flammability or explosive limits	Not available
Vapour pressure	Not available
Vapour density	Not available
Relative density	1.26-1.30kg/L
Solubility (ies)	Not available
Partition coefficient: n-octanol/water	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Kinematic viscosity	95-100KU
•	

## 10. Stability and Reactivity

Stability	The product is stable
Possibility of hazardous	Under normal conditions of storage and use, hazardous reactions will not
reactions	occur.
Conditions to avoid	None known.

Incompatible materials	NZ Safety Data Sheet None known.		
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 13. Disposal Considerations.

Do not let this product enter the environment. Do not dispose of in waterways or sewers. Dispose of this material and its container as hazardous waste, via a licensed facility. See local council for disposal/recycling information.

Date of issue: 26 June 2023 NZ Safety Data Sheet

	2 2	
14. Transportation Information.		
Not regulated for transport.		
Keep separated from foodstuffs.		
15. Regulatory Information.		
Group Standard:	Surface Coatings and Colourants (Subsidiary Hazard) Group Standard 2020.	
HSNO Approval Number:	HSR002670	
HSNO CONTROLS		
SDS required when any quantity is present in a workplace.		
Emergency Response Plan and Secondary Containment required when >1000L is present in a workplace		
Ecotoxic signage required when >1000L is stored.		
Certified Handler	Not Required	
Tracking	Not Required	

All ingredients are on the New Zealand Inventory of Chemicals (NZIoC), or exempt.

Any existing national regulations on the handling of dangerous substances should be observed. Controls for hazardous substances are based upon current knowledge. Where multiple chemicals are stored, controls will need to take into account aggregate quantities. Contact a WorkSafe approved Compliance Certifier for further information and guidance.

This material is not subject to the following agreements:

- Montreal Protocol (Ozone Depleting Substances)
- The Stockholm Convention (Persistent Organic Pollutants)
- The Rotterdam Convention (Prior Informed Consent)

#### 16. Other Information.

HSNO = Hazardous Substances and New Organisms Act 1996.

EPA = Environmental Protection Authority

CCID = Chemical Classification and Information Database (EPA)

NZ WES = New Zealand Work Exposure Standard

TWA = Time Weighted Average

STEL = Short Term Exposure Limit

Date of SDS Preparation: 26 June 2023.

The data given here is based on current knowledge and experience. The purpose of this Safety Data Sheet is to describe products in terms of their safety requirements. The above details do not imply any guarantee concerning composition, properties or performance of the product.
