Date of issue: 31 May 2021 NZ Safety Data Sheet

1. Identification of the Substance/Mixture and Supplier.		
Product name:	Deck and Exterior Oil Stain – MCR (404-128, -162, -164, -184 and -185)	
Application:	Decorative stain for timber cladding and decking	
Company:	DECORA GROUP LTD	
	7 Akatea Road,	
	Glendene,	
	Auckland,	
	New Zealand.	
Telephone:	09 818 9215	
Facsimile:	09 818 7862	
Emergency telephone:	0800 761 333	

## 2. Hazards Identification.

HSNO Status: Classified as hazardous according to the criteria of HSNO. HSNO approval number HSR002669

<b>DG Status:</b> Classified as Dangerous Goods according to NZS5433	
Signal Word: DANGER	

HAZARD CLASSIFICATIONS HSNO	HAZARD STATEMENTS	GHS Pictogram
Flammable liquid, category 3	H226 Flammable liquid and vapour.	٢
Aspiration hazard Category 1	H304 May be fatal if swallowed and enters airways.	٨
Skin irritation Category 2	H315 Causes skin irritation.	
Eye irritation Category 2	H319 Causes serious eye irritation.	
Skin sensitisation Category 1	H317 May cause an allergic skin reaction.	
Carcinogenicity Category 2	H351 Suspected of causing cancer.	
Reproductive toxicity Category 2	H361 Suspected of damaging fertility or the unborn child.	
Effects on or via lactation	H362 May cause harm to breast-fed children.	N/A
Specific target organ toxicity – single exposure Category 1 6.9A (single exposure)	H370 Causes damage to organs.	
Specific target organ toxicity – repeated exposure Category 1	H372 Causes damage to organs through prolonged or repeated exposure.	
Specific target organ toxicity – single exposure Category 3 narcotic effects	H336 May cause drowsiness or dizziness.	$\langle \mathbf{\hat{v}} \rangle$
Hazardous to the aquatic environment chronic Category 2	H411 Toxic to aquatic life with long lasting effects.

# 3. Composition/Information on Ingredients.

Chemical Entity	CAS Number	Proportion %w/w
White Spirits – High Flash	Blend	>60
Hydrocarbon Liquid	64742-82-1	1 - <10
Xylene	1330-20-7	1 - <5
Biocide	Blend	1 - <5
Ethyl Benzene	100-41-4	0.1 - <1

# Date of issue: 31 May 2021 NZ Safety Data Sheet

Balance of ingredients: Non-hazardous, or below the hazardous threshold.

## 4. First Aid Measures.

Swallowed	If swallowed do NOT induce vomiting. Give water to drink. Get medical
	attention immediately.
Inhaled	If inhaled, move the victim to fresh air immediately. Begin artificial respiration if
	breathing has stopped. Obtain medical attention if symptoms occur.
Eye Contact	If splashed in the eyes, wash out immediately with water. Obtain medical
	attention if irritation occurs.
Skin Contact	If skin or hair contact occurs, remove contaminated clothing and flush skin and
	hair with running water. Get medical attention if symptoms occur.
Further Information	For advice contact the National Poisons Centre – 0800 POISON (0800 764
	766) – or a doctor, immediately.

## 5. Fire-Fighting Measures.

Suitable extinguishing	In case of fire, use foam, dry chemical or CO <sub>2</sub> .
media	
Unsuitable extinguishing	High volume water jet.
media	
Hazards from the	In a fire or if heated, a pressure increase will occur and the container may
substance	burst.
Hazardous combustion	Decomposition products may include:
products	Carbon oxides, Nitrogen oxides, Other noxious substances.
Special precautions for	Promptly isolate the scene by removing all persons from the vicinity of the
fire-fighters	incident if there is a fire. No action shall be taken involving any personal risk or
	without suitable training.
Special protective	Fire-fighters should wear appropriate protective equipment and self-contained
equipment for fire fighters	breathing apparatus (SCBA) with a full face-piece operated in positive
	pressure mode.

#### 6. Accidental Release Measures.

Personal precautions	Wear appropriate Personal Protective Equipment (see section 8). Provide adequate ventilation.
Environmental precautions	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Small spill	Stop leak if without risk. Move containers from spill area. Absorb with an inert dry material and place in an appropriate waste disposal container. Eliminate all ignition sources. Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor.
Large spill	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Eliminate all ignition sources. Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product.

## 7. Handling and Storage.

Handling	Wear appropriate PPE, and ensure there is adequate ventilation and
	extraction in the work area. Avoid skin or eye contact, or breathing in the

## Date of issue: 31 May 2021 NZ Safety Data Sheet

	product. Follow precautions listed in section 2 for handling flammable/combustible liquids.
Storage	Keep container dry and tightly closed, in a cool, well-ventilated area, away from direct sunlight. Keep away from heat, sparks and open flame. Store locked up.

## 8. Exposure Control/Personal Protection

	the finished product, listed c		
Product/Ingredient	WES/TWA	WES/STEL	Reference
Xylene	50ppm, 217mg/m <sup>3</sup>	-	NZ-WES
Methanol	200ppm, 262mg/m <sup>3</sup>	250ppm, 328mg/m <sup>3</sup>	NZ-WES
Ethyl Benzene	100ppm, 434mg/m <sup>3</sup>	125ppm, 543mg/m <sup>3</sup>	NZ-WES
Engineering Controls	General ventilation and local exhaust should be suitable to keep vapour concentrations below WES/TWA. Ventilation equipment should be explosion-proof when operating in flammable zones.		
Personal Protection			
Respiratory	Wear a vapour respirat	tor.	
Eyes	Wear chemical goggles/face protection.		
	Wear chemical gloves – PVC, Polychloroprene or Nitrile.		
Hands			nandling large quantities.

## 9. Physical and Chemical Properties

PROPERTY	SPECIFICATION
Appearance (physical state, colour, etc.)	Liquid, various colours
Odour	Hydrocarbons
Odour threshold	Not available
pH	Not applicable
Melting point/freezing point	Not available
Initial boiling point and boiling range	Est. ~150°C
Flash point	Est. ~40°C
Flammability (solid, gas)	Not applicable
Upper/lower flammability or explosive limits	Vapours may form explosive mixtures with air
Vapour pressure	Not available
Vapour density	Not available
Relative density	0.84 – 0.88
Solubility (ies)	Insoluble in water
Partition coefficient: n-octanol/water	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Kinematic viscosity	Not available

Stability

The product is stable

Date of issue: 31 May 2021	NZ Safety Data Sheet	
Possibility of hazardous	Under normal conditions of storage and use, hazardous reactions will not	
reactions	occur.	
Conditions to avoid	Sources of ignition – heat, sparks, flames.	
Incompatible materials	Strong acids and alkalis, oxidising agents.	
Hazardous decomposition Under normal conditions of storage and use, hazardous decomposition		
products	products should not be produced.

## **11. Toxicological Information**

Original data sourced from CCID	
Classification:	Aspiration Hazard – Category 1
Health Effects:	May be fatal if swallowed and enters airways.
Reference:	Derived by applying mixture rules
Classification:	Skin Irritant – Category 2
Health Effects:	Causes skin irritation.
Reference:	Derived by applying mixture rules
Classification:	Eye Irritant – Category 2
Health Effects:	Causes serious eye irritation.
Reference:	Derived by applying mixture rules
Classification:	Skip constitution Cotogory 1
Health Effects:	Skin sensitisation Category 1
	May cause an allergic skin reaction
Reference:	Derived by applying mixture rules
Classification:	Carcinogenicity Category 2
Health Effects:	Suspected of causing cancer.
Reference:	Derived by applying mixture rules
Classification:	Reproductive toxicity Category 2
Health Effects:	Suspected of damaging fertility or the unborn child.
Reference:	Derived by applying mixture rules
Classification:	Effects on or via lactation
Health Effects:	May cause harm to breast-fed children.
Data:	Derived by applying mixture rules
Classification:	STOT-SE – Category 2
Health Effects:	May cause damage to organs.
Reference:	Derived by applying mixture rules
Classification:	STOT-SE, Cat 3 (narcotic effects)
Health Effects:	May cause drowsiness or dizziness.
Reference:	Derived by applying mixture rules
Classification:	STOT-RE – Category 1
Health Effects:	Causes damage to organs through prolonged or repeated exposure
Reference:	Derived by applying mixture rules

INHALATION LC50 (dus	t/mist)			
>5 mg/L/4H				
Product/Ingredient:	LD50 – Oral, mg/kg	LD50 – Dermal, mg/kg	LC50 – Inhalation, mg/L/4H	
White Spirits - HF	3280 - Rat	-	18 – Vap - Rat	
Xylene	1590 – Mouse	1100	27.6 – Vap – Rat	
Ethyl Benzene	3500 – Rat	-	9.6 – Vap – Rat	
12. Ecological Infor This product is classified Ecotoxic Ingredients:	rmation as Ecotoxic according to the	criteria of HSNO.		
Ingredient		Classification		
ACTICIDE CF		Hazardous to the aquatic environment chronic		
ACTICIDE CF		Category 1		
WHITE SPIRITS HI FLASH		Hazardous to the aquatic environment chronic Category 2		
		Hazardous to the aquatic environment chronic		
SETAL 270 EHV WS-70		Category 2		
Product/Ingredient		Species, L(E)C50		
		FISH		
White spirits		Oncorhynchus mykiss, LL50 10-30 mg/L/96h		
		CRUSTACEAN		
White spirits		Daphnia magna, EL50 10-22 mg/L/48h		
White spirits		ALGAL Recudekirchporialla subo	poitata Erl 50 4 1	
		Pseudokirchneriella subcapitata, ErL50 4.1 mg/L/72h		
Product Calculated Aqua	atic Ecotoxicity – hazardous to	the aquatic environment chro	onic Category 2

Ecotoxicity Data - CCID				

# Date of issue: 31 May 2021 NZ Safety Data Sheet

Persistence & Degradability - Not available

## Mobility - Not available

Bioaccumulation Potential - Not available

Other - Not available

## 13. Disposal Considerations.

Do not let this product enter the environment. Do not dispose of in waterways or sewers. Dispose of this material and its container as hazardous waste, via a licensed facility. See local council for disposal/recycling information.

## 14. Transportation Information.

Regulated for transport	Keep separated from foodstuffs
UN Number:	1263
Proper Shipping Name:	PAINT
Class:	3
Packing Group:	III
Hazchem:	3Y
Marine Pollutant:	Yes

## 15. Regulatory Information.

Group Standard:	Surface Coatings and Colourants (Flammable,	
	Carcinogenic) Group Standard 2020	
HSNO Approval Number:	HSR002669	
HSNO CONTROLS		
SDS required when any quantity is present in a workpla	ce.	
At least 2 x 4.5kg powder fire extinguishers required wh	en 500L is present in a workplace.	
Emergency Response Plan and Secondary Containmer	t required when >1000L is present in a workplace	
Flammable signage required when >1000L is stored.		
Ecotoxic signage required when >1000L is stored.		
(Class Flammable Liquid, category 3) Hazardous	>500L (closed containers >5L)	
Substances Location Compliance Certificate required	>1500L (closed containers up to 5L)	
for:	>250L (open containers)	
(Class Flammable Liquid, category 3) Hazardous	>100L (closed containers)	
Atmosphere Zone required for:	>25L (decanting)	
	>5L (open occasionally	
	>1L (open containers in continuous use)	
Certified Handler	Not Required	
Tracking	Not Required	

Date of issue: 31 May 2021 NZ Safety Data Sheet

All ingredients are on the New Zealand Inventory of Chemicals (NZIoC), or exempt. Any existing national regulations on the handling of dangerous substances should be observed. Controls for hazardous substances are based upon current knowledge. Where multiple chemicals are stored, controls will need to take into account aggregate quantities. Contact a WorkSafe approved Compliance Certifier for further information and guidance.

This material is not subject to the following agreements:

- Montreal Protocol (Ozone Depleting Substances)
- The Stockholm Convention (Persistent Organic Pollutants)
- The Rotterdam Convention (Prior Informed Consent)

## 16. Other Information.

HSNO = Hazardous Substances and New Organisms Act 1996. EPA = Environmental Protection Authority CCID = Chemical Classification and Information Database (EPA) NZ WES = New Zealand Work Exposure Standard TWA = Time Weighted Average STEL = Short Term Exposure Limit

Date of SDS Preparation: 31 May 2021

The data given here is based on current knowledge and experience. The purpose of this Safety Data Sheet is to describe products in terms of their safety requirements. The above details do not imply any guarantee concerning composition, properties or performance of the product.
