Exterior stains and oils can be used to nourish, rejuvenate, beautify and enhance timber. They also protect the timber from UV damage and moisture, keeping your timber beautiful for years to come.

We've taken the guess work out of selecting the right stain for your project – Procoat Stains and Oils have been developed using the latest technologies, creating a premium range designed for use on all exterior timber. So, no matter what your chosen colour and product, you'll achieve premium results.

All Procoat products are proudly made in NZ.

The colours on this chart are representations only. Due to limitations in the printing process, these may not represent the true colour. Oils and stains will appear different on different timbers. Consult the product label and technical data sheets for application details.

Deck & Exterior Oil Stain

Created using the latest in oil stain technology, this premium linseed oil modified stain provides colour and protection to all exterior timber. Ideal for all exterior timber, including weatherboards, decks, fences, pergolas and timber furniture.

- ✓ Provides exceptional colour and protection to all exterior timber surfaces
- ✓ Enriched with linseed oil to nourish and rejuvenate
- ✓ Advanced UV blocking pigments protect the timber from sun damage
- ✓ Enhances the natural grain of the timber
- ✓ Available in solvent based and waterbased formulas
- ✓ Coverage up to 12m² per litre, depending on the timber type

Charcoal

Blackbean

Cedar

Rustic Oak

Kwila

Natural*

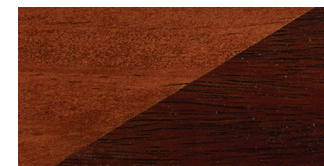

Colour samples are shown on pine (top) and cedar. Stain colours will vary depending on the timber being stained.

*Can also be used to rejuvenate previously stained timber and enhance natural timbers.

Premium Furniture & Decking Oil

A premium fast drying and penetrating oil designed specifically for exterior timber furniture and decks. The unique formulation is enriched with tung oil to nourish, rejuvenate and protect the timber, and the natural colour pigments enhance the timber grain.

- ✓ Premium oil enriched with natural tung oil to nourish, rejuvenate and protect exterior timber
- ✓ Natural colours enhance the natural beauty of the timber grain
- ✓ Perfect for decks and timber furniture, and most other exterior timber
- ✓ Protects against mould and algae growth
- ✓ Coverage up to 12m² per litre, depending on the timber type

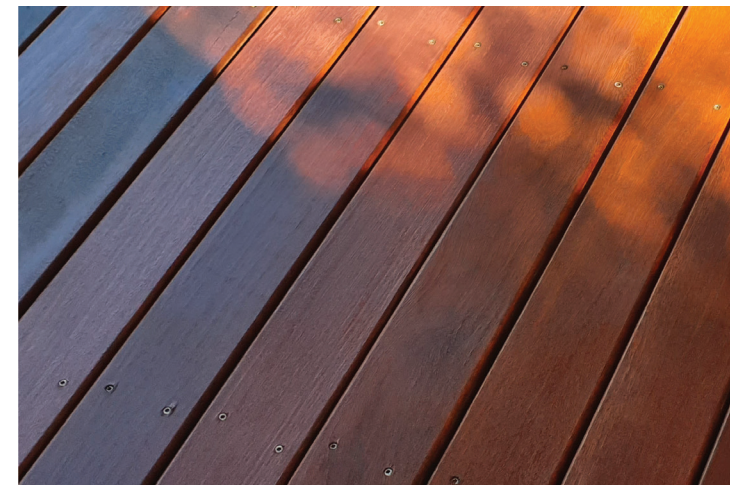

Kwila

Natural*

Colour samples are shown on pine (top) and kwila. Stain colours will vary depending on the timber being stained.

*Can also be used to rejuvenate previously stained timber and enhance natural timbers.

Preparation & Maintenance

To achieve the best results, ensure the surface is dry, free from dirt, dust and other contaminants. Prepare timber with the recommended Procoat preparation product prior to staining.

Timber Cleaner & Brightener

A professional strength cleaner formulated to rejuvenate and clean grey, weathered timber, and prepare new timber prior to staining or oiling. The unique gel structure allows Procoat Timber Cleaner & Brightener to stay active on the timber for longer, resulting in a more effective clean.

Exterior House & Deck Wash

A specially formulated cleaner designed to safely clean and maintain the exterior of your home. Ideal for use on exterior painted, stained and oiled surfaces prior to recoating, or as a maintenance wash to keep surfaces clean and extend the life of your coating.

Application

Stir well before and during use with a broad flat paddle, using an up and down scooping motion.

Apply the selected stain or oil with a brush or applicator pad. For best results, we recommend using a premium lambswool applicator pad.

Apply 1 coat of the selected stain or oil, ensuring it is worked well into the timber. Some timbers, especially rough sawn may require a second coat. Do not apply excessively as the stain or oil must penetrate into the timber.

Procoat stains and oils should be regarded as a maintenance coating. For maximum protection and performance, re-stain as soon as the timber shows signs of weathering.

Clean regularly with Procoat Exterior House & Deck Wash to remove dirt, mould and other contaminants, and to extend the life of the coating.

For detailed preparation, application and maintenance details, refer to the product label or technical data sheet at www.aalto.co.nz

Quality Guarantee

Aalto guarantees that Procoat Stains and Oils are manufactured to the highest quality and are suitable for staining exterior timber, provided they are applied and maintained as per label instructions.

All Procoat by Aalto products are manufactured within the international ISO 9001 accreditation standard. This guarantee does not cover coatings failure caused by any breakdown of previous coatings, substrates or mechanical damage.

All Procoat products are proudly made in NZ by Aalto Group. Aalto Group manufactures a trusted range of paints and coatings that provide a guaranteed, long lasting finish.
